

## The Dutch Waste Management Association (DWMA) Joins The European Recycling Industries' Confederation (EuRIC)

EuRIC welcomes the Dutch Waste Management Association as a new Member.

Dominique Maguin, EuRIC President, speaking in the aftermath of [EuRIC Annual Event](#): *“It is a great pleasure to count the Dutch Waste Management Association among its Members at such a crucial time for the waste management and recycling industries.”*

The Dutch Waste Management Association joins EuRIC when the European Union discusses the new Circular Economy Package under the leadership of the Dutch Council Presidency.

*“Waste is a resource. The DWMA, which is true partner in the circular economy, will bring its expertise in a number of resource streams and strengthen the plea for EU-wide pull mechanisms to boost markets for recycled materials”.*

Mr. Emmanuel KATRAKIS, Secretary General of EuRIC & Mr. Florens SLOB, chair of the DWMA Recycling and Collection Section

The DWMA is very pleased with its EuRIC membership. Florens Slob, chair of the DWMA Recycling and Collection Section: *“EuRIC is a dynamic and growing European recycling industry platform which works closely with European policymakers to support and accelerate the transition to a circular economy. This is entirely in line with the aims of the DWMA and the key role we see for recycling in this vital transition.”*

**\*About EuRIC**

EuRIC is the umbrella organisation for recycling industries in Europe. Through its Member Federations from **19 EU and EFTA countries**, EuRIC represents today **across Europe** over:

- **5,500 companies** generating an aggregated annual turnover of about **€95 billion** involved in the recycling & trade of various resource streams;
- **300,000 non-outsourcable jobs**;
- **An average of 150 million tons of waste recycled per year**

**\*About the Dutch Waste Management Association**

The Dutch Waste Management Association promotes the interests of companies active throughout the whole waste management chain. By uniting the various parties and interests in the chain, the Association has become a key partner in the transition to the circular economy. It stimulates a transition based on closing recycling loops and recovering materials and energy. DWMA negotiates with government and other organisations on behalf of its members. In terms of turnover and waste volumes, the Association represents about two-thirds of the Dutch waste market.
